

# Athens Female ACADEMY.

**T**HE Institution is under the direction of ELISHA W. CRYSTON, Esq a graduate of Middlebury College, assisted by Miss Fish and Miss Wood; the former, an Instructress of considerable experience and both well qualified for the duties of their office

The examination of their pupils took place on the 28th of May. The highest anticipations of the Trustees and citizens who attended on the occasion were more than realized. The promptness with which the most difficult questions were answered in English Grammar, Arithmetic, Geography both Ancient and Modern, Rhetoric, &c evinced at once the industry of the pupils and the fidelity of the Instructresses

The trustees of this Female Seminary, at the commencement of the year, declared that it was not their intention to puff the Institution into notice; yet they feel no hesitation in saying that they have seldom witnessed an Examination in which Girls of the same age did themselves or their Instructresses more credit and, after having observed for six months the course of instruction pursued here and the degree of proficiency attained, we can conscientiously recommend this Academy as worthy of the public patronage. The healthfulness of this place and the advantages which as a village it enjoys, it is confidently hoped will offer sufficient inducements to parents to place their daughters in this Seminary

Young ladies from abroad are required to board with the Rector in his family, or with some relative. With the exception of Music, every branch of a solid and or namental education may be here acquired. At the close of the next vacation, it is intended to adopt in the Academy a more regular and systematic course of education than is generally pursued in similar Institutions. The vacations are so arranged that the Rector is seldom on the circuit during the term

His professional duties, therefore, interfere but a little with his attention to the government and superintendance of the Academy
