

THE subscribers as a committee of the *Senatus Academicus*, were directed by that Body, to give notice that they would receive lists of subscriptions, for money to be contributed to aid in the immediate establishment of the university of this state; they therefore inform all persons who may hold, or to whom such lists of subscriptions may be delivered, that they will be ready to receive them until the twenty-fourth of November next, when the *Senatus Academicus* is expected to be convened at Louisville, to which Board it will then be necessary to report the amount and nature of such subscriptions.
